

# FRE-EZE-STOP

## Winter Pipe Protection

Plug-in & Heat-Safe  
Winter Protection Kits  
with in line temperature switch

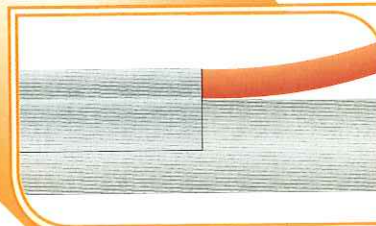

- Safe and Simple to fit
- Energy efficient - In line temperature switch
- Safety - Self regulating temperature safe heater
- Suitable for all pipe materials

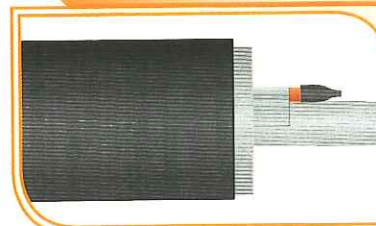

### 1 Plan

- a) Measure your pipe and select the kit to suit
- b) Ensure you have an adequate electrical supply
- c) If outdoors ensure your electrical socket is weatherproof

### 2 Fit Heater

Apply the aluminium adhesive tape straight along the pipe. Run the heating cable straight on the pipe and apply second layer of aluminium adhesive tape along its length

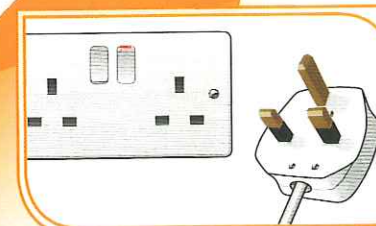

### 3 Cover with Insulation

Apply Thermal insulation and seal down the joints with tape provided - if supplied by Ezeheat

### 4 Heatsafe

Place the caution labels on the outer surface to ensure a safe installation

### 5 Plug In

Plug in our heater to your supply. **Switch on** – you're protected for the winter  
Note if outdoors this must be a weatherproof unit

#### In Your Kit

- terminated heater with inbuilt temperature switch
- 2m cold tail and plug (if applicable)
- Adhesive aluminium fixing tape
- Instructions

#### Stop Pipes freezing:

- Garage
- Loft
- Outhouse
- Holiday home
- Caravan
- Stables

#### Other uses include:

- Preventing icing in gutters
- Preventing pathways freezing
- Preventing ponds icing over
- Protecting plants
